## Information Disclosure Statement

The information disclosure statement filed October 25, 2002 has been considered and has been made of record. The information disclosure statement is being considered now because the first office action mailed November 24, 2002 crossed in the mail and therefore was not considered then; we apologize for the mishap.

## Response To amendment

The amendment filed March 13, 2003 in which claims 1-4 were canceled is acknowledged; claims 5-8 are presently pending. Further, the rejection of now canceled claims 1-4 over JP-02001072770 under 35 USC 102(a) as being anticipated has been withdrawn; and, the rejections of claim 1 under 35 USC 102(b) as being anticipated by JP05-301849, JP05-117211, JP06-01661 and JP06-16597 are moot in view of the claim 1 being canceled.

However, claims 5-8 are subject to a new ground of rejection under 35 USC 102(b) as anticipated by JP07-049501 to Bessho Nobuo (newly cited and of record).

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

<sup>(</sup>b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Application/Control Number: 10/018;860

Art Unit: 1711

Claims 5-8 are rejected under 35 U.S.C. 102(b) as being anticipated by JP07-049501 to Bessho Nobuo (newly cited and of record).

Bessho Nobuo (JP07-049501 (newly cited and of record) discloses an orienting agent for liquid crystal containing a polymer and/or its imidized polymer obtained by the reaction of a tetracarboxylic acid dianhyride expressed by formula I (R¹ is quadrivalent organic group) and a diamine compound expressed by formula II (R², R⁴ are univalent organic groups selected from methyl, ethyl, trifluoromethyl groups, R³ is a straight-chain and/or branched-chain alkyl group of 1-20 carbon number, (a), (c) are integers of 0 to 4 and (b) is an integer of 1 to 4; which anticipates the claimed invention. See English language abstract.

Applicant's arguments with respect to claims 5-8 have been considered but are most in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia Hightower whose telephone number is (703) 308-2434. The examiner can normally be reached on M-F from 9:30 A.M - 6:00 P. M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 703-308-2462. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9311 for regular communications and 703-872-9310 for After Final communications.

Art Unit: 1711

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0661.

P. Hightower/mn June 06, 2003
